

The Wright Group Services to Offer Enhanced 401(k) Consulting

Denver, CO – The Wright Group Services is pleased to announce an enhanced suite of retirement plan consulting services that is now available to its clients.

“Our new *Retirement Plan Advisory System* means more dedicated services to help ensure employers’ fiduciary compliance, and deliver a more successful and meaningful retirement plan for employees,” says Bryan Wright, the firm’s President.

Core services rolled into the new system include:

- Investment due diligence analysis
- Scorecard Fund Ranking
- Service provider searches and benchmarking
- Plan design and annual review
- 404(c) fiduciary guidance
- Employee communications

“Every plan sponsor has unique goals and objectives. As a dedicated retirement plan consultant, The Wright Group Services will create an ongoing service plan specific to each client’s needs,” says Wright. “We’ll begin with a thorough review of the plan to ensure total plan costs are relevant to the services being received. Then, on an ongoing basis, we will examine the plan design with ideas to improve participation and operational efficiency.”

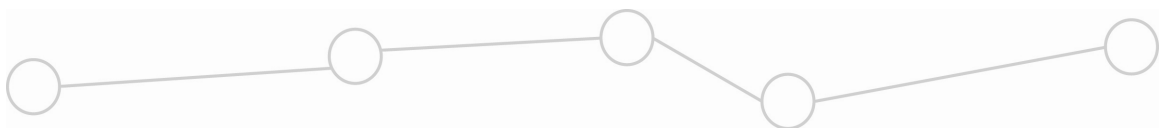

Perhaps most importantly, notes Wright, the firm will help navigate fiduciary responsibility through robust, systematic, quantitative and qualitative investment analysis involving over 150 pages of detailed reports utilizing 15+ industry standard analytical measurements. “Our due diligence process goes far beyond the *Morningstar* 5-star ratings and instead focuses on a cyclical approach of fund selection, monitoring, and ongoing documentation and review.”

About The Wright Group Services

The Wright Group is a full service employee benefits and commercial insurance consulting firm. Their retirement plan services cover all aspects of an organization’s needs, from plan reviews, investment advice, fee benchmarking and investment due diligence – all designed to help protect plan fiduciaries from personal and corporate financial liability, while enhancing investment opportunities for participants. The Wright Group is headquartered in Denver, Colorado. Visit www.twgservices.com for more information.
